***Election/Restriction***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Groups I, claim(s) 1-6, drawn to a film comprising substantially spherulitically crystallized polyamide containing solid, anisotropic, nucleating fillers.

Group II, claim(s) 7-9, drawn to a method of making a film comprising a substantially spherulitically crystallized polyamide containing solid, anisotropic, nucleating fillers.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The expression "special technical features" means those technical features that define a contribution which each of the claimed inventions, considered as a whole, makes over the prior art. The current claims are each drawn to a crystalline polyamide containing solid, anisotropic, nucleating fillers. However, said claims lack a "special technical feature" because the claimed composition is taught in the prior art. Thus, the claimed composition does not make a "contribution" over the prior art. Specifically, US 3,843,591 (herein referred to as "Hedrick") teaches a polyamide composition reinforced

with small particle crystalline filler (abstract). Such filler acts as a nucleating agent (col 2, lines 43+; and col 8, lines 64+).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
